# INTRODUCTION

**Ultra Fab India Pvt. Ltd.** is one of the first few manufacturing unit in India. Whether your Laboratory project is large or small, new construction or remodeling Ultra Fab has the qualified people and quality product to transform your vision to successful reality.

From Pre-Planning to final completion, experienced, Ultra Fab representatives are available to help you for Laboratory design and layout, product selection, ordering, scheduling and installation. Their extensive knowledge of Laboratory Products and Procedure will ensure that you receive high quality functional facility you had in mind.

Ultra Fab as a leader in the design, manufacturing and installation of Laboratory Furniture and Laboratory Fume Hoods. Uniquely adaptable, we serve Customers from many disciplines such as Industry, Research Centre.

With Over 6 years experience, our laboratory furniture division specialise in the design, manufacturing and installation of laboratory furniture, Laboratory Fume Hood, & Lab Exhaust Systems. Our Designers are concentrating on product features and enhancing Aesthetics & Functionality of our products to meet market demands.

This gives strength to develop & launch new products with regular interval to provide automated solution to industry. It's Makes Ultra Fab products fully equipped to match global features. Keeping all scientists in mind these safety products are manufactured carefully to comply International Norms.

Ultra Fab Products are backed by efficient project Engineers & Installation team providing quick Commissioning & Prompt After sales Service.

## TEAM OF EXPERTS.....

We have a team of young and dynamic from the heart experts who carry out our entire organizational activities in and optimum professional manner.

Our dedicated engineers, technical experts and other servicing executives are always involved in finding new ways to provide best quality and services to our clients. Their endeavors are backed by technicians and other skilled and semi-skilled workers who have immense experience in allied sphere of operation.

## QUALITY.....

We are on a never ending search for perfection. Our focus on quality is evident in our product range. We have never compromised on quality and have successfully achieved a high level of customer appreciation resulting in long-lasting relations.

Our team of experts with vast knowledge of our products maintains a strict vigil on the products to ensure that, not even one defected piece leaves the factory premises.

## CLIENTS.....

We constantly strive to raise the level of satisfaction of our clients through our quality products and prompt services. Today, we have established a wide client base across the India.

We are committed to maintain the quality of our products and services and share a mutually beneficial and long lasting relationship with our clients.

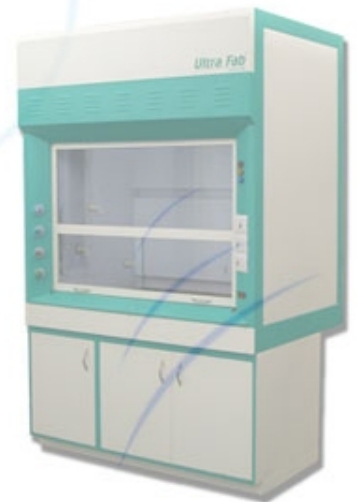

## LAB FURNITURE DIVISION

- Island Bench
- Working Table
- Instrument Table
- Wall Storage Cabinet
- Sink Table
- Washing Table
- Corner Table
- Reagent Rack
- Anti Vibration Table
- Peg Board
- Eye Wash

## FUME HOOD DIVISION

- Laboratory Fume Hoods
- Portable Counter-top Fume Hoods
- Spot Extractor Arms
- Chemical Storage Cabinets
- Canopy Hoods
- Special Lab Exhaust Systems
- Utility Services
- Eye Wash

## FUME HOOD DIVISION

- Standard Fume Hood
- Low Bench Fume Hood
- Walk In Fume Hood
- Radio Isotopic Fume Hood
- Perchloric Acid Fume Hood

Safety in the Laboratory is a primary concern. The Supreme air series of fume hoods meet the challenge with a high degree of efficiency. A wide variety of models and comprehensive option packages have been designed to enable you to tailor your fume hood to a specific application.

**FUME HOOD MADE OF COMPLETE STEEL:** Are manufactured from best quality C.R.C.A Sheets (Cold Rolled Case Annealed Low Carbon steel sheets) of 18/20G which are duly provides better protection from acid fumes in the lab.

**FUME HOOD:** Are available with variety of lining and work surface like PP, PPGL, FRP,SS (316), PVC, HDPE, Ceramic tiles etc. \* Have 5.5 mm toughened glass sash suspended on safe device. It is provided with counter balance load for easy up and down movement. \*Are aerodynamically designed which provides most efficient airflow to the suction. \* Are double wall construction which provides easy maintenance, access to service like Water gas, electricity etc. \* Are Provided with support base having provision for air vent connection to evacuate tapped chemical vapor inside. Are provided with switch for easy starting of the centrifugal fan. High quality HDPE/FRP/PPGL/PP/PVC pipes & accessories are used for FC ducting . \* We are using centrifugal PP/FRP. Blowers for Exhaust system of FC, 3 phase motor (capacity according to need) is coupled with blower.

## LAB FURNITURE DIVISION

### ISLAND BENCH

Assembly very much in need for the laboratory usage. Island bench assembly is a combination of different modules a sink unit as well as Reagent shelf provided with services as per customers requirement. The modules are so designed that they can be fitted either to the pedestal system or the flexible system with considerable ease. Shutters and drawers have handles. Shutters are fitted with hinges. Locking arrangement can be provided to all modules. Shutter modules have removable shelves.

Modules for sink tables are specially designed for the fitment of sinks. Cut outs are provided at the top and rear of the of the unit for positioning of the sink and its piping work. Servicing within the confines of the modules is made practical by providing full length shutters. The drawer organizers for fitting into storage modules offer an ideal solution for the storage of small laboratory ware. Bench system can be fitted with bench top as per customers choice and service for specific use.

## CHEMICAL STORAGE CABINET

Storage Cabinet provided to store solvents & chemicals inside Laboratory,

No. of Racks are provided worth front of glass doors, Exhaust port on top allows no. of cabinets to be connected to common blower in cluster, Size can be altered as per Requirement.

## WALL STORAGE CABINET

Wall storage unit have horizontal sliding glass door or alternatively metal doors which run smoothly in channels. Two adjustable shelves are provided. For wall mounting of the units reinforced eyelets holes and a support channel are provided.
